

# Ketan Vardekar

## Software Engineer

With over **2+ years** of experience in web development, I've evolved from a frontend specialist into a proficient **full stack developer**. My journey has empowered me to craft visually captivating and intuitive websites while broadening my skill set to encompass backend technologies. I'm enthusiastic about leveraging my expanded expertise to propel your team's digital initiatives to new heights, contributing to our collective success through continuous learning and growth.

## WORK EXPERIENCE

### Full Stack Developer Logwintech Pvt Limited

09/2023 - 08/2023

Surat

#### Achievements/Tasks

- Worked with **Nest Js**, a powerful backend Framework.
- Used **PostgreSQL** to design databases, employing **Prisma** as a type-safe ORM.
- Utilized **AWS** services, including **S3** and **SES** for reliable email communication

### Front-End Developer Glory Autotech LLP

01/2022 - 08/2023

Surat, India

#### Achievements/Tasks

- Implemented **E-verification** using **third-party APIs**, **Signzy**.
- Integrated **payment gateways** such as **RazorPay** and **Open Money** into websites for seamless payment processing.
- Creating and maintaining Angular applications that consume **RESTful APIs**.
- Achieved a **75%** reduction in page load time using **lazy loading** techniques.
- Collaborating with designers and clients to turn wireframes and mockups into functional web pages.
- Developed and implemented test suites using **Karma** and **Jasmine** for robust unit testing of Angular applications.

## EDUCATION

### Bachelors Of Engineering Government Engineering College, Dahod

06/2018 - 05/2022

8.13 CGPA

### HSC Deacons Foundation (G.S.E.B)

06/2017 - 05/2018

## SKILLS

HTML

CSS

JavaScript

Angular

TypeScript

Git & Github

RxJs

Bootstrap

CSS pre-processors

Node.Js

NestJS

PostgreSQL

## PROJECTS

### Polynomial.ai (03/2022 - 09/2022)

- As an AI project my main role was to translate the UI to UX and implementing the layout, navigation, and visual elements of the application using Front-End Technologies.

### HR Buddy (09/2022 - 12/2022)

- This is our in-house project, similar to HackerRank where we take tests of interns and freshers for training and interview purposes, and also added features such as day-to-day attendance tracking for employees.

### Authoritti (11/2022 - 01/2023)

- This is basically a emotion predictor. There are set of question after answering them based on some score a emotion is defined.

### EQUIDEI (01/2023 - 08/2023)

- EquiDEI is a DeFi platform that enables manufacturing SMEs to get easy access to finance by tokenising their assets with the help of blockchain.

### ViewBid.ca (09/2023 - 08/2023)

- Canadian-based online bidding platform, which has nearly 21000+ active users.
